

Reunity Resources

All Prices Per Cubic Yard
Delivery & Custom Blends Available

Compost is an excellent soil conditioner. It adds organic matter, improves soil structure, helps control pests and reduces fertilizer requirements.

Reunity Resources Compost

\$75

Locally made with environmental health at its heart. A gardener's choice for increased organic matter and nutrients.

Two varieties available: manure or food scraps (both made with green waste).

Vaca Compost

\$80

Steer your soil to life. A dense and rich compost; rancher's remedy for depleted soil. Steer manure based, aged 18-24 months.

Cowboy Compost

\$78

Southwest blend of Vaca and Reunity Resources manure based compost. Our most sought-after blend. Cowboy up!

Mucho Coco Compost

\$125

Ideal for high desert gardening and farming. Got water? This 50/50 blend of coconut coir and compost significantly increases water retention.

Soilutions Compost

\$75

A great choice for building healthy, sustainable, regenerative soil. Made by Soilutions in Albuquerque from local manures and green waste.

Mulch is an excellent ground cover. It retains moisture, helps control weeds and pests, prevents soil erosion and maintains soil nutrients.

Premium Composted Mulch

\$55

Our Premium Composted Mulch is screened from green waste and manure compost. Free from weed seeds and pathogens. Screened to 3/4" diameter.

Composted Mulch

\$37

Our composted mulch is screened from green waste and food waste compost. Free from weed seeds and pathogens. Screened to 3/4" diameter. Note: contains some bits of plastic.

Giddy Up Mulch

\$65

Spur on soil health with this blend of composted mulch and compost. Delivering additional nutrients and organic matter while providing excellent ground cover benefits.

Amber Mulch

\$55

Dress your landscape with this gorgeous red and yellow mulch. Locally produced bark mulch free of weed seeds.

Arborist Mulch

\$20

Arborist Mulch \$20 Local tree trimmings great for soil erosion control, Hugelkultur and lasagna gardening.

Garden Soil

\$75

Ideal for raised beds or large areas. Compost, native soil and pumice create a baseline blend to get your garden started. Additional amendments available to enhance this blend.

Poco Coco Garden Soil

\$105

A significant boost of coconut coir and rice hulls added to our garden soil. Providing superior water retention and aeration.

Coco Coir & Rice Hulls Blend

\$180

Retain water while simultaneously increasing drainage and aeration. In time, these amendments increase organic matter in your soil. 70% coir, 30% rice hulls.

Coco Coir

\$150

Save our peat bogs by choosing this more sustainable alternative. 100% pure coco coir

Bountiful Blooms Potting Mix

\$145

A beautiful blend of coconut coir, rice hulls, compost and scoria foster bountiful blooms. Superior drainage, aeration and water retention for small containers.

Pumice

\$52

3/8"-1/4" grains

Scoria

\$52

1/4"-minus grains

Both improve porosity and aeration while stimulating growth of mycorrhizae.
